

THE GREEN EXPERTS

LAWN CARE  LANDSCAPING  IRRIGATION  TREE SERVICE 

The Expertise That Will Make Your Property Shine

WHEN SATISFACTION COUNTS

The Green Experts is a different kind of landscaping company. We built a solid reputation for delivering excellence, value, outstanding customer service, responsiveness, professionalism, expertise, integrity and total peace-of-mind to distinctive communities, condominiums, shopping plazas, business parks, commercial properties and municipalities throughout South Florida.

We provide a complete integrated one-stop solution including lawn care, landscape maintenance, irrigation, fertilization, tree care and comprehensive landscaping services. We care and it shows.

Our success is measured by our high customer retention, and satisfaction levels. Your landscape will be the first thing you see and the last thing you worry about.

FROM THE PRESIDENT

"I am proud of our success. Founded in 2005, The Green Experts has grown to be a top-rated landscaping organization, recognized among the best and largest in South Florida. We have the capacity to service small to extra large properties.

We are passionate about creating beautiful environments for people coming home to their community, going shopping or going to work. We seek perfection in everything we do. We implemented a strong customer service culture. Every team member understands that our company's first priority is to go above and beyond to satisfy board members, help our property managers be successful and make our properties shine.

Customer service, responsiveness, pro-action, dependability, high quality standards and consistency are our strengths. Honesty, integrity, accountability and excellence are our values.

Our staff is experienced in transforming visions into reality and making our clients' landscape a real asset for their property."

PARTNER FOR SUCCESS

Our ultimate goal is make our properties look their best within our clients' budget.

We partner and work hand-in-hand with property managers and board members (as instructed) to deliver quality, results and peace-of-mind.

Partner with The Green Experts. Partner for success.

LANDSCAPE MAINTENANCE

Anyone who cares about quality and the look of their property knows that landscape maintenance is far more than lawn care.

Caring is about constantly manicuring the focal points of your property, shaping shrubs and plants according to varietal and seasonal requirements, pruning to promote good sturdy growth, controlling weeds, and most importantly, being pro-active and responsive.

Furthermore, weather, water, nutrients, plant life cycles, insects, diseases and adequate care all impact your landscape's delicate balance. We monitor your landscape, identify potential issues, provide you with our expert opinion, and suggest cost-effective improvements or programs to keep your property in pristine condition.

IRRIGATION

Adequate irrigation is a delicate balance. Too much water is as detrimental as too little. Improper care results in dying grass and shrubs, fungus and pest infestations. It also results in expensive plant replacements and corrective treatments. In addition, water conservation is a significant concern in South Florida. Expert irrigation care is therefore critical.

We strive going above and beyond. We provide licensed expert irrigation wet checks and repairs in a time and cost-efficient manner, helping properties save and control expenses. As part of our complete solution, we monitor several times a month the status of your landscape. Our thorough wet checks ensure the working condition and coverage of all zones and sprinkler heads, the optimal operation of pumps, controllers and valves, and the correct disbursement of water according to species and seasonal requirements.

TREE CARE

Hardwood and palm trees are a significant assets of any properties. Expert maintenance promotes their healthy growth, enhances their aesthetics, minimizes potential hazards and liabilities, and protects the value of your landscape investment.

Our licensed arborists have the knowledge and experience to best trim palm trees and prune/aerate hardwood trees according to ANSI 300 standards, city compliance and the requirements of individual species. Moreover, safety comes first.

Because each cut has the potential to change the growth of hardwood trees, our expert pruning has a lasting impact on tree health and aesthetics. Because bottom palm fronds feed the heart in sugar and nutrients, our expert trimming will prolong the life of palm trees. Our understanding of tree biology results in better care and disease prevention.

LANDSCAPING

We are experienced in transforming visions into reality. We rejuvenate and beautify residential and commercial landscapes by delivering innovative and vibrant designs that meet your goals, budget and preferences. We manage small and large scale projects ranging from seasonal planting, shrub and tree installation to new sites and total landscape makeover.

We design creative residential landscaping at affordable rates from a tropical zen to beautifying community focal points. For commercial properties, we create clean and striking designs to attract customers and traffic. We also install unique xeriscape designs centered on water conservation. We provide mulching of entire properties and rubber mulching of tot lots. As required, we integrate hardscape elements to complement your particular landscape environment.

Consider The Green Experts for all your landscaping needs.
